

## Investment Strategy for Northern Ireland (ISNI) Infrastructure Investment Pipeline

Date of issue: June 2017

*Please visit the NI Executive's ISNI Information Portal for more information  
and to sign up for automatic alerts:*

[www.isni.gov.uk](http://www.isni.gov.uk)

Whilst the Departments have used their best efforts to ensure that the information appearing in this document is reasonably accurate, the information and material contained in this report is provided for general information purposes only and Departments cannot accept responsibility for any errors, omissions or inaccuracies. No reliance should be placed upon such information and material. None of the Departments or other bodies referred to on this report will accept responsibility for any loss which may arise from reliance on information contained therein. The eventual procurement and implementation of projects will be dependent upon completion of business case and other approvals, and subject to change in the light of political and budgetary circumstances. Information is correct as of January 2017.

### WHAT IS THE INFRASTRUCTURE INVESTMENT PIPELINE DOCUMENT?

The pipeline document is designed to complement information provided on the ISNI Information Portal ([www.isni.gov.uk](http://www.isni.gov.uk)).

- The ISNI Information Portal provides a wide range of information on construction projects (and their underpinning procurements) under the Executive's Investment Strategy for Northern Ireland. With effect from May 2015, all bodies covered by NI Public Procurement Policy are required to maintain detailed information on infrastructure developments, including procurement information, on the ISNI Information Portal. This requirement is set out in Procurement Guidance Note PGN 02/15 (see link below).
- The pipeline differs from the Information Portal in two ways. Firstly, it has a focus on procurement opportunities that have not yet been tendered (i.e. only pre-procurement). Secondly, the pipeline document provides a longer-term view of potential deal flow and broad estimates of the timing of procurement opportunities over that term.
- Procurement opportunities within the pipeline encompass both construction works and construction related services (e.g. design).

### WHERE HAS THE INFORMATION IN THE PIPELINE COME FROM?

All information has been provided by departments, Non Departmental Public Bodies or agencies that have a responsibility for developing infrastructure. For ease of use, the Excel version of the pipeline document can be filtered to show information by department.

### HOW OFTEN WILL THE PIPELINE DOCUMENT BE UPDATED?

As a minimum, the Procurement Pipeline will be updated on a quarterly basis. Where appropriate (e.g. where a material change to procurement information is required) the document will be revised more frequently and made available via the ISNI Information Portal ([www.isni.gov.uk](http://www.isni.gov.uk)).

### WHERE SHOULD I DIRECT QUERIES?

Any queries can be directed to [isnidts@sibni.org](mailto:isnidts@sibni.org)

### PROCUREMENT GUIDANCE NOTE PGN 02/15

<https://www.finance-ni.gov.uk/publications/procurement-guidance-note-0215-procurement-pipeline>

The Infrastructure Investment Pipeline provides details of government funded infrastructure contracts that have not yet entered procurement. Full details of contracts in procurement, procurement concluded, construction/delivery started, construction/ delivery completed can be found on the Investment Strategy Northern Ireland Contracts are presented below in chronological order, under five pillars (Networks, Skills, Social, Environment and Health) and states the contracts type (Construction, Design, Enabling Works and Maintenance Framework). Delivery Bodies (i.e Departments and their agencies) have provided a brief outline of their projects including the project value and name of the sponsoring department. Filters have been applied for ease of use so you can, for example, filter on contracts of a certain value or type.

Where contracts contained in the document are at an advanced stage they will also be published to the ISNI website. More detail on those contracts can be accessed by clicking on the information links contained within the document. Please note that the ISNI Information Portal is not a tendering portal, once contracts have entered procurement more details will be available on eTendersNI, in the press or on the appropriate Contracting Authority's website.

Whilst the Departments have used their best efforts to ensure that the information appearing in this document is reasonably accurate, the information and material contained in this report is provided for general information purposes only and Departments cannot accept responsibility for any errors, omissions or inaccuracies. No reliance should be placed upon such information and material. None of the Departments or other bodies referred to on this report will accept responsibility for any loss which may arise from reliance on information contained therein. The eventual procurement and implementation of projects will be dependent upon completion of business case and other approvals, and subject to change in the light of political and budgetary circumstances. Information is correct as of June 2017.

The Infrastructure Investment Pipeline provides details of government funded infrastructure contracts that have not yet entered procurement. Full details of contracts in procurement, procurement concluded, construction/delivery started, construction/ delivery completed can be found on the Investment Strategy Northern Ireland Contracts are presented below in chronological order, under five pillars (Networks, Skills, Social, Environment and Health) and states the contracts type (Construction, Design, Enabling Works and Maintenance Framework). Delivery Bodies (i.e Departments and their agencies) have provided a brief outline of their projects including the project value and name of the sponsoring department. Filters have been applied for ease of use so you can, for example, filter on contracts of a certain value or type.

Where contracts contained in the document are at an advanced stage they will also be published to the ISNI website. More detail on those contracts can be accessed by clicking on the information links contained within the document. Please note that the ISNI Information Portal is not a tendering portal, once contracts have entered procurement more details will be available on eTendersNI, in the press or on the appropriate Contracting Authority's website.

Delivery Bodies (i.e Departments and their agencies) have provided a brief outline of their projects including the project value and name of the sponsoring department. Filters have been applied for ease of use so you can, for example, filter on contracts of a certain value or type.

Where contracts contained in the document are at an advanced stage they will also be published to the ISNI website. More detail on those contracts can be accessed by clicking on the information links contained within the document. Please note that the ISNI Information Portal is not a tendering portal, once contracts have entered procurement more details will be available on eTendersNI, in the press or on the appropriate Contracting Authority's website.

Whilst the Departments have used their best efforts to ensure that the information appearing in this document is reasonably accurate, the information and material contained in this report is provided for general information purposes only and Departments cannot accept responsibility for any errors, omissions or inaccuracies. No reliance should be placed upon such information and material. None of the Departments or other bodies referred to on this report will accept responsibility for any loss which may arise from reliance on information contained therein. The eventual procurement and implementation of projects will be dependent upon completion of business case and other approvals, and subject to change in the light of political and budgetary circumstances. Information is correct as of June 2017.

Filters have been applied for ease of use so you can, for example, filter on contracts of a certain value or type.

Where contracts contained in the document are at an advanced stage they will also be published to the ISNI website. More detail on those contracts can be accessed by clicking on the information links contained within the document. Please note that the ISNI Information Portal is not a tendering portal, once contracts have entered procurement more details will be available on eTendersNI, in the press or on the appropriate Contracting Authority's website.

Whilst the Departments have used their best efforts to ensure that the information appearing in this document is reasonably accurate, the information and material contained in this report is provided for general information purposes only and Departments cannot accept responsibility for any errors, omissions or inaccuracies. No reliance should be placed upon such information and material. None of the Departments or other bodies referred to on this report will accept responsibility for any loss which may arise from reliance on information contained therein. The eventual procurement and implementation of projects will be dependent upon completion of business case and other approvals, and subject to change in the light of political and budgetary circumstances. Information is correct as of June 2017.

									2017-18	2018-19	>2019	
<p><b>A55 Widening at Knock Road, Belfast</b> The scheme will widen a 0.6km section of the existing carriageway between Clarawood and Kings Road, providing two lanes in each direction, together with a central median to accommodate right turning vehicles. The scheme will also upgrade existing junctions and provide improved facilities for pedestrians and cyclists. Full project costs shown.</p>	Networks	Open Market	Construction Works Civils	Transport NI Roads	eTenders NI	<b>Pre-procurement.</b> Scheme is in the TransportNI Roads Preparation Pool. Notice Intention to Proceed and Direction Order made (Sept 12).	Dfi	£12m - £15m			✓	
<p><b>A2 Ballykelly Bypass</b> The preferred route is 6km of single carriageway that passes Ballykelly to the south of the village. A proposed junction at the Loughermore Road will provide access to and from the dual carriageway. Full project costs shown</p>	Networks	Open Market	Construction Works Civils	Transport NI Roads	eTenders NI	<b>Pre-procurement.</b> Scheme is in the TransportNI Roads Preparation Pool. Preferred Option approved (Mar 10).	Dfi	£40m - £45m			✓	
<p><b>A2 Sydenham Bypass, Belfast</b> The proposed scheme will widen a 2.5km stretch of the existing A2 Sydenham Bypass to a dual 3-lane carriageway. Some of the key aspects of the scheme include the replacement of Sydenham Footbridge and provision of a shared footway and cycle way, along with the eventual removal of Dee Street junction upon the completion of a new Connswater junction. Full Project costs shown.</p>	Networks	Open Market	Construction Works Civils	Transport NI Roads	eTenders NI	<b>Pre-procurement.</b> Scheme is in the TransportNI Roads Preparation Pool. Preferred Option approved (Dec 09).	Dfi	£40m - £45m			✓	
<p><b>A2 Widening Buncrana Road, Derry~Londonderry</b> Improvement of the A2 Buncrana Road, Derry~Londonderry between the Pennyburn Roundabout and the Border. Buncrana Road is part of the North Western Key Transport Corridor connecting Belfast to Derry~Londonderry and on to Donegal. Full project costs shown.</p>	Networks	Open Market	Construction Works Civils	Transport NI Roads	eTenders NI	<b>Pre-procurement.</b> Scheme is in the TransportNI Roads Preparation Pool. Preferred Option approved (Feb 09).	Dfi	£45m - £50m			✓	
<p><b>A28 Armagh East Link</b> Scheme to provide a 2.25km single carriageway link from the A3 Portadown Road to A28 Markethill Road. Full project costs shown.</p>	Networks	Open Market	Construction Works Civils	Transport NI Roads	eTenders NI	<b>Pre-procurement.</b> Scheme is in the TransportNI Roads Preparation Pool. Preferred Option approved (Mar 12).	Dfi	£15m - £20m			✓	
<p><b>A29 Cookstown Eastern Distributor</b> Bypass involving the construction of approximately 4km of new wide-single carriageway to the east of the town. The upgrading of approximately 0.5km of the C622 Sandholes Link Road is also included in the proposal. Full project costs shown.</p>	Networks	Open Market	Construction Works Civils	Transport NI Roads	eTenders NI	<b>Pre-procurement.</b> Scheme is in the TransportNI Roads Preparation Pool. Preferred Option approved (Mar 10).	Dfi	£35m - £40m			✓	
<p><b>A3 Armagh North &amp; West link</b> The proposal is for the provision of a single carriageway road, approximately 6.9 km long, extending around the northern and western outskirts of the City of Armagh, linking between the A3 Portadown Road and the A3 Monaghan Road. Full project costs shown</p>	Networks	Open Market	Construction Works Civils	Transport NI Roads	eTenders NI	<b>Pre-procurement.</b> Scheme is in the TransportNI Roads Preparation Pool. Preferred Corridor approved (Apr 08).	Dfi	£50m - £60m			✓
